Operating System Navigation Checklist

Student Name: Chris Sibri

Date: 10/25/26

Instructions

Navigate to each Windows feature listed below and take a screenshot showing the feature open.

Save all screenshots and upload them to your Week 3 GitHub folder.

Required Tasks

- ☑ ~~☐ Open Windows Settings~~
- ☑ ~~☐ Open File Explorer~~
- ☑ ~~☐ Open System Information~~
- ☑ ~~☐ Open Device Manager~~
- ☑ ~~☐ Open Task Manager~~

Screenshot Verification

Screenshot 1: Windows Settings

- ☑ ~~☐ Completed~~

File Name: Settings Screenshot.png

Screenshot 2: File Explorer

- ☑ ~~☐ Completed~~

File Name: File Explorer Screenshot.png

Screenshot 3: System Information

☑ ~~☐ Completed~~

File Name: System Information Screenshot.png

Screenshot 4: Device Manager

☑ ~~☐ Completed~~

File Name: Device Manager Screenshot.png

Screenshot 5: Task Manager

☑ ~~☐ Completed~~

File Name: Task manager screenshot.png

Reflection

Briefly describe what areas of Windows you accessed during this activity.

Well typically I always access the Task manager as I sometimes have to force close an application on my computer when it doesn't respond. I've used all of these applications before as I have needed to configure my computer on my own before. System information to get information on my pc when something is not working. Task manager to see what's taking up my memory. Device manager to see the peripherals connected and so on.
